ANTIOCH FAIR OPENS TODAY

BOONE CO. IS FIRST TO PICK DELEGATES IN JUDGESHIP RACE

"Little Boone" Will Name 11 at a Meeting Sept. 2

With two prominent candidates in the field to succeed the late Judge Edward D. Shurtliff as circuit judge in the 17th judicial circuit, Boone county is out in front of the other counties of the district in being first to fix the date for selecting delegates to the judicial convention to be held in Woodstock October 9. The Republican central committee from "Little Boone" has set September 2 at 4 p. m. as the time for naming that county's 11 delegates. The meeting will be held in the court house at Belvidere.

In addition to naming the delegates the committee will instruct them as to its wishes regarding a choice of candidates to be voted for. In Boone county the fight is on between William L. Pierce, shaggy haired Belvidere attorney and long a prominent barrister throughout the district, and Judge Frank Oakley. Both candidates claim to have sufficient support among the central committeemen to have the delegates instructed to cast their vote for them in the judicial convention October 9.

Boone Entitled to 11 Delegates in the district convention, and 10 of these will have full votes and the 11th a fractional vote. This is on the basis of the vote cast for the Republican candidate for governor in the general election of 1936 when Boone county cast a total of 5,297 votes for C. Wayland Brooks. A delegate is to be chosen for every 500 votes cast for Brooks in the general election.

The first move in the selection of a candidate on the Republican ticket was taken a week ago when the chairmen of the four counties met in Woodstock and set October 9 as the date for the convention. The election will be held on December 7.

McHenry county precinct committeemen will meet shortly after Labor day, and Lake and Winnebago counties will also call their county meetings the first or second week in September.

Other candidates who loom as more or less formidable opponents to the Boone county entrants, include David R. Joslyn and Charles H. Francis, both of Woodstock, and Judge Henry L. Cowlin of Crystal Lake.

MUNDELEIN FARM IS CHAMPION IN PURE MILK CONTEST

The New Home Farm of Earl H. Kane, Mundelein, Illinois, was hailed Monday as "Chicagoland's Neatest Dairy Farm" by the Pure Milk Association, which announced the winners in its fourth annual Neatest Dairy Farm Project.

The 140-acre Kane farm is located two miles south of Mundelein, Illinois, on Route 59-A. Not elaborate landscaping or other decoration, but the exceptional neatness of the whole farm, the immaculacy of the milk house and equipment, the cleanliness of the 32-cow purebred Guernsey milk herd, were the things that won the coveted 1937 title for this farm. Mr. Kane was the Gold Medal winner of District 7 in last year's Neatest Farm Project, but under the rules of the contest could not again be district winner. However, because his score in the preliminary judging equaled that of the new District 7 champion, he was eligible to compete for the Grand Championship. The prize for this is an 8-day trip to Yellowstone National Park and Colorado for Mr. and Mrs. Kane as guests of the Pure Milk Association.

Mr. Kane has been a dairy farmer for twenty-one years, and has been a member of the Pure Milk Association, Prairie View local, since it was organized.

Mr. and Mrs. Albert Pedersen left last Thursday for Clinton, Illinois, where they visited their daughter and husband, Mr. and Mrs. Gregory Yahnke, for a few days, after which they are taking a vacation trip to Iowa and Nebraska.

Antioch Lions Club Plans Charter Night

Although no definite date has been set for the event, the Antioch Lions club members assembled at Shady Nook hotel Monday night, made plans for charter night to be held some time during September. At that time the speaker will be John G. Rietz, governor of Dist. 1A of the Lions International.

Much constructive work is in prospect for the newly organized club, and with the granting of the charter next month the group will start active work on several projects for community betterment.

CHICAGOAN SAVED FROM DROWNING IN LAKE MARIE FRIDAY

Harlo Cribb and Companion Rescue and Revive Justus B. Coates

Quick thinking and prompt action by Harlo Cribb and his guest, George Borovicka, 30, saved the life of Justus B. Coates, 60, of 5441 N. Linder ave., Chicago, Friday afternoon, when the men pulled the unconscious Coates from the water in Lake Marie after he had fallen from his boat while fishing. Borovicka, a Chicago druggist, of 2601 Kedzie ave., had come to Antioch to spend the week with the Cribb family. With Harlo Cribb he went to Lake Marie to fish. Shortly after 3 o'clock they saw an empty boat drifting off shore near the Dressel House. Near the boat they saw the top of a man's head.

Quickly the fishermen pulled the seemingly lifeless body of Coates into their boat and Borovicka began to administer artificial respiration while Cribb rowed to shore.

Observers on shore responded to the calls of the men in the boat and called the Antioch fire department. Borovicka continued his manipulations after he and Cribb had reached shore and after 20 minutes he had restored natural breathing. When the firemen arrived with the pulmotor, the machine was no longer needed.

At the office of Dr. D. N. Deering in Antioch it was found that Coates had sustained two broken ribs in his fall. He was kept in the doctor's office all night with a nurse in attendance. Saturday morning the man apparently had recovered from his almost fatal experience except for his ribs.

Coates has been spending the summer at Channel Lake. Living with him are his two grandsons, 8 and 10 years old, the children of his daughter, Mrs. J. Zinn of the N. Linder address in Chicago.

The identity of Coates was not known until Antioch firemen had traced the ownership of the boat he was using as the property of Smith's resort at Channel Lake.

Lake Co. Guernsey Makes State Champion Record

Peterborough, N. H. — Tianna's Gaiety 384159 has just completed a record which makes her queen of all three year old Illinois Guernseys in class EE of the American Guernsey Cattle Club. Tianna's Gaiety 384159 was bred by J. E. Andrus of Walker, Minnesota, and owned by Isabel F. Bates of Barrington, Illinois, and in one year made a record of 115569 pounds of milk and 594.4 pounds of butter fat in class EE.

Next Chest Clinic to Be Held Wednesday

The next chest clinic sponsored by the Lake County Tuberculosis Association will be held Wednesday, September 1, at St. Theresa Hospital in Waukegan. Clinic hours are from 9 a. m. to 3 p. m. Examination is free to anyone who is unable to pay for such an examination.

Mrs. Erma Craven of Chicago was the guest of Mrs. Robert Selter and other relatives in Antioch, last week.

Mr. and Mrs. C. H. Soelke, Dr. and Mrs. Konzelman of Chicago, were Sunday guests of Mrs. Robert Selter.

Mr. and Mrs. Paul Chase entertained John and Richard Dowell of Oak Park, Mr. and Mrs. Fred Runyard and Mr. and Mrs. Thomas Runyard, Sunday.

ANTIOCH AG BOYS ARE VICTORS AT ELCIN EXHIBITION

Win 25 Awards and \$103 in Premiums at Agricultural Fair

Fourteen Antioch boys, members of the Agricultural Department of the local high school, today will return victorious from the Elgin Agricultural Fair, where they won 25 prizes and collected \$103 in premium awards for their entries of cattle, sheep, and garden products.

Returning to Antioch late today the boys will bring their prize-winning entries to the Antioch Country Fair, where they will be placed on exhibition in connection with the 4-H club show and compete for awards in local fair.

Bonner First with Holstein Heading the list of blue ribbon winners in the Elgin competition is Robert Bonner who was awarded first prize and \$10 premium for showing the best yearling Holstein calf. In this division Gordon Pierce placed 11th. Bonner also won 6th on Holstein calf under one year.

In the Guernsey class, John Blackburn won second with his yearling calf. Other winners by Antioch boys included: Brown Swiss yearling—Virgil Horton, 2nd; Glenn Fox, 4th. Jersey—Sidney Hughes, 1st. Brown Swiss over 1 year—Glenn Fox, 4th.

In the open class, any breed of cow or heifer—Robert Bonner, 5th; Robert Denman, 6th; Alfred Anderson, 8th.

Angus—Robert Denman, 7th; Francis Swenson, 8th.

Shedek, White Win Firsts Two first premiums were copied by Antioch boys for best sheep. They were Robert White, for best ewe in the open class, and Conrad Shedek for best Shropshire ewe lamb.

Other Antioch winners were: Shropshire ram lamb—Conrad Shedek; Shropshire ewe lamb—Robert White, 5th; Raymond Wells, 6th. Open class ewe lamb—Robert White, 7th. Shropshire aged ewe—Ray Wells, 5th; Robert White, 9th; Conrad Shedek, 10th. Wether—Robert White, 2nd.

In the garden exhibit Lyle Dibble won 5th place and Henry Quedenfeld 7th award.

LEGION AUXILIARY PLANS 3-DAY FETE FOR SEPT. 4, 5, 6

Plans are being completed by the Antioch American Legion Auxiliary for a three-day carnival to be held Saturday, Sunday and Monday, Sept. 4, 5 and 6, on the grounds at the corner of Main and Park avenue. The women of the Auxiliary will be assisted by the local American Legion post.

The Legion and Auxiliary will operate the games and stands at which prizes will be given, and one of the leading amusement companies is bringing the usual rides, including giant swing, Ferris wheel and merry-go-round. Nothing has been overlooked that will provide fun and amusement for those who attend, both old and young.

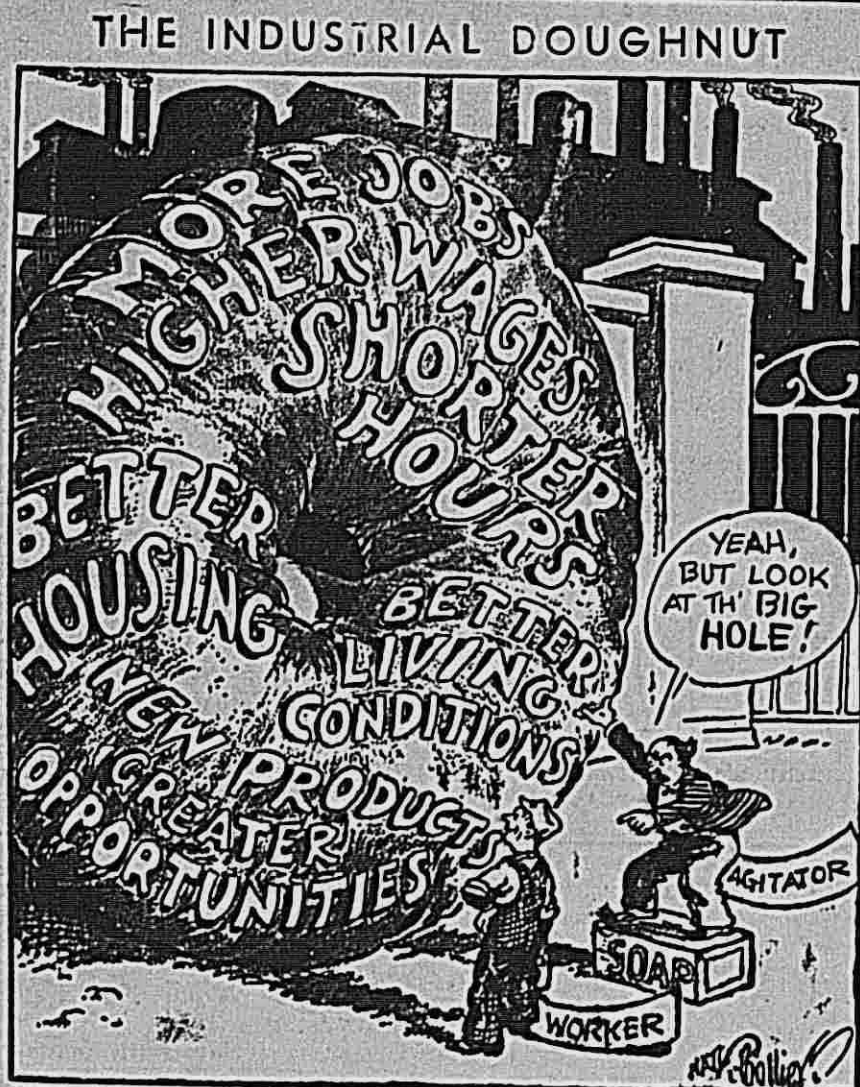

Mrs. Walter Hills heads the committee for the Auxiliary. The sponsors plan to open the carnival Friday night.

Antioch Talent to Be Heard Over WLS Sat.

Miss Florence Dunford and her brother, Edward, will sing over WLS Saturday during the home talent community program at 1:15 daylight saving time. The talented local singers will be accompanied on the guitar by Howard Black of the WLS staff.

Mrs. Dardenne's Mother Dies in Erie, Pennsylvania

Mrs. E. Talling, mother of the late Mrs. Gladys Dardenne, died Friday at her home in Erie, Pa., friends here received word Saturday. Mrs. Talling spent a summer here at the home of her daughter and became known to many Antioch people who will regret her passing.

HIGH SCHOOL SETS AUG. 30 AND 31 AS REGISTRATION DAYS

Antioch High Opens Sept. 7; Only Freshmen to Attend First Two Days

Registration days for Antioch Township High School will be Monday and Tuesday, August 30 and 31, Principal L. O. Bright announced this week. Pupils are urged to register on these days. Parents are invited to accompany the students in order to discuss the selection of subjects. Juniors and Seniors will register Monday; Freshmen and Sophomores, Tuesday. Freshmen should bring their eighth grade diplomas.

The courses offered and the texts used will be almost identical with those of last year. Art will be given. The following subjects will be offered. Subjects listed in capitals are required—others may be selected. Four subjects is the regular load.

Freshmen—ENGLISH, Mathematics, Algebra, Latin, Foods, Crops, Business, Industrial Arts, General Science, Ancient History, PHYSICAL EDUCATION.

Girls taking Foods will register for General Science.

Sophomores—ENGLISH, Geometry, Latin II, Ancient History, Animal Husbandry, Clothing, Industrial Arts, Biology, Bookkeeping, PHYSICAL EDUCATION.

Juniors—ENGLISH, Advanced Algebra, European History, Farm Mechanics, Mechanical Drawing, Shorthand I, Typing I, Cicero, German I, Chemistry, Physics, Mechanical Drawing, Home Management, PHYSICAL EDUCATION.

Seniors—English, AMERICAN HISTORY, Economics, Cicero, German II, Shorthand II, Typing II, Farm Problems, Chemistry, Physics, Mechanical Drawing, Home Management, PHYSICAL EDUCATION.

Public speaking may be selected by anyone. Other subjects available to all are band, dramatics, orchestra, chorus, girls glee club, boys glee club, and library science. Physical education will be required.

A graduate of Antioch Township High School can enter any college in the middle west without examination if care is used in the selection of subjects, and if recommended by the principal.

In general, the following are required for college: four years of English, three of Mathematics, two of Language, two of Science, and two of History. If it is likely that the pupil may enter college, the advice of the principal should be sought to learn more of the particulars, as the various college courses have somewhat different entrance requirements.

Only Freshmen will attend on Tuesday and Wednesday, September 7 and 8.

Mr. and Mrs. Howard Johnson and family of Marengo, Mr. and Mrs. W. Bernbaum of Chicago and Mr. and Mrs. Earl Somerville of Kankakee were Sunday guests of Mrs. Mollie Somerville.

EXHIBITION DRAWS CROWD AS DOORS OPEN

Fourteenth Annual Event Is Enlargement Over Previous Fairs

QUALITY EXHIBITS PLEASE OFFICIALS

The fourteenth annual Antioch Country Fair, Lake County's outstanding rural exhibition, today opened its doors at the Antioch high school buildings and grounds for the big three-day show that promises to surpass all previous fairs in quality and number of exhibits, entertainment features and community interest.

Also being held this year in conjunction with the fair is the 4-H Club Roundup and Achievement Days, augmenting the premium list for which hundreds of competitors will vie in every class. Early today entries continued to pour in, according to President D. H. Minto and Secretary Charles Paddock who were busy making room for entries and seeing that exhibits were properly placed.

\$3,500 Premium Awards A survey made early today among the superintendents of the various departments indicates that many quality exhibits are being placed to compete for a share of the \$3,500 premium awards.

Bountiful grain and garden crops this year assures full entries of excellent products in these departments, while the poultry show as usual will have hundreds of aristocrats of the feathery tribe.

Splendid Entertainment Heading the entertainment features will be nationally known radio artists from WLS, including Joe Kelly, boss of the National Barn Dance, who will be master of ceremonies here tonight.

On Friday afternoon and evening the Hayloft Trio will entertain at 3:00; 4:30; 8:30 and 10:30; and on Saturday, George Goebel, the youthful star of WLS, will be heard at 3:00, 4:30, 8:30 and 10:30 o'clock.

As an added attraction this year the Sons of Legion Drum and Bugle corps of Crystal Lake will appear on Friday afternoon. This newly organized group of boys is attracting wide attention and their appearance here will be a novelty in the way of entertainment.

The usual rides and some new ones, besides the games and novelty concessions will furnish entertainment for both young and old.

Style Show Saturday The girls of the 4-H clubs will present a style show on Saturday evening. All club girls who have made a dress are requested to model the dress in this style parade at 9:30 o'clock.

Entries will close at 6:00 p. m. today and all exhibits are to remain in place until 11:00 p. m. Saturday.

Admission to the fair will be 25 cents for adults. Children under 12 will be admitted free.

Crop Limitation Called Unsound

New Brunswick, N. J. (IPS)—Louis J. Taber, Master of the National Grange, declared here that farmers have no reason to fear unlimited crop production.

Mr. Taber said that although his statement was contradictory to those advocating crop controls, he did not want to take issue openly with the government experts, but was confining himself to a statement of principle, namely, that limitation of production was unsound.

"With ham being imported by the million pounds from Poland," Mr. Taber pointed out, "and with canned beef coming in by the thousands of tons from South America and with the greatest imports of corn ever known, it would seem that we have quickly forgotten the drought of yesterday."

John Keoth of Washington, D. C., Mrs. T. J. Keoth and son, Ignatius of Bloomington, Mr. and Mrs. A. N. Barton and sons, Ed and Loras of Oak Park, Sister Mary Venatius, B. V. M., Sister Mary Danette, B. V. M., of St. Ferdinand, Chicago, Mrs. Eliza Elkins and son Stephen of Oak Park, Mr. and Mrs. Leonard Shea of Chicago were guests of Mr. and Mrs. John Doyle from Friday until Wednesday, at their home at Channel Lake.

The Biased Referee

While Washington is witnessing one attack after another on the National Labor Board, the following editorial is especially interesting because it appeared in the Pittsburgh Press, long friendly toward labor and the Wagner Act:

"The Labor Board and various regional directors have done little to disguise the fact that they consider themselves as special pleaders for labor, rather than as impartial referees in the administration of a Federal law that is intended for the welfare of everybody.

"There is something very repugnant in that attitude, because the basic philosophy of our Government is one of fairness and lack of bias or discrimination. It is as dangerous for a Labor Board to become the proponent and partisan for one class as it would be were the Interstate Commerce Commission, the Federal Trade Commission or the Federal courts themselves to take sides between groups and classes in the administration of their important duties.

"The lowest criminal is considered innocent under the law until proven guilty; yet thousands of business men feel that under the policies and sympathies of the Labor Board and its agents they are considered guilty whenever complaint is made against them until proven innocent. And they do not feel that they have an even chance, such as is afforded in court, to prove their innocence. They approach a Labor Board hearing with the belief that they already have two strikes on them."

The Press points out that here is a situation which needs drastic and immediate correction.

Apparently a good many farming people in this country are beginning to be aware of a disturbing fact which should have been self evident a long time ago. They are beginning to understand that government subsidies are inescapably linked with government dictation.

Americans Won't Grow in Rows

Many of the resettlement projects launched by the Federal government, aimed toward rehabilitating supposedly unhappy people in straitened circumstances, have gone far astray of their original altruistic objectives. Real American citizens do not wish to be regimented on model farms, or in neatly arranged flats and apartments as if they were a pack of rabbits. Dyed-in-the-wool Americans would rather live in a tin hut down by the railroad tracks than to be ensconced in a barracks-like dwelling the very completeness and detached coldness of which would sweep away the last vestiges of personality and individuality.

* * * *

The Doughnut Has a Hole in It!

It sometimes requires a rather foolish argument to bring into our minds the actual wealth, comfort and security of the American industrial employee.

Therefore, if it were not for the man who points to the doughnut and complains: "But look, there is a hole in it," the thought would never occur to many of us that the doughnut, itself, was there.

The industrial employee in America has a doughnut—a large one well seasoned with years of civil progress. Its main ingredients are three things: the highest wage, the shortest working hours and the highest standard of living in the entire world.

And every day industrial research laboratories are experimenting with new means to enhance those standards—to enlarge the doughnut and sweeten it.

How foolish, then, is the cry of the labor agitator that the doughnut has a hole. That man has never tasted it and cries in hysterical self pity, envious of those that have.

Typical of the sentiment of those who have, on the other hand, was a steel worker recently interviewed by a New York Times writer who sought the workers' view of the labor situation. The man, a steel company worker, declared:

"I don't think you'll find much dissatisfaction here. I've been with the company for 33 years—started when I was 11, and there are plenty of more like me. There isn't anyone who can't be heard at the front office if he wants to. We're not overworked and we get good pay."

MILLBURN

The Ladies Aid Society will serve supper at the church Thursday evening, Sept. 2nd, at five o'clock.

Richard Martin started Sunday for a ten day vacation in Denver, Colorado.

Carroll and Lois Truax spent a few days last week with their uncle, Philip Truax, in Waukegan.

Mr. and Mrs. Harry Herrick and daughters, Dorothy and Billie, are spending two weeks with relatives in Iowa.

Mr. and Mrs. Gordon Bonner and family were guests for dinner at the home of Mr. and Mrs. W. A. Bonner.

Mr. and Mrs. E. A. Martin spent Sunday afternoon and evening with the latter's sister, Mrs. Grover Linn, in Chicago.

Geraldine Bonner of Urbana is spending ten days with her parents, Mr. and Mrs. L. S. Bonner.

Mr. and Mrs. J. Kaluf spent Sunday with the Ray Harmer family in Waukegan.

Mrs. George Edwards and grandson, Marc Edwards, with Mr. and Mrs. Robert Erwin of Waukegan spent Sunday afternoon with the former's granddaughter, the John Dickey family, in River Forest.

Mr. and Mrs. L. H. Kamper and daughter, Rena, of River Forest, were callers at the J. S. Denman home Sunday.

Beryl Bonner won second place on her washable school dress in the 4-H club dress revue at the State Fair at Springfield.

Mr. and Mrs. Howard Garby and daughter, Eleanor and Miss Ruby Watson of Chicago spent Sunday at the R. J. Bonner home.

Arthur Hauser of Kenosha spent Sunday with his parents, Mr. and Mrs. Frank Hauser.

Mr. and Mrs. Philip Truax and daughter, Geraldine, Mr. and Mrs. William Schroeder of Waukegan, Mr. and Mrs. Otto Menn and son of Kenosha, Mr. and Mrs. Bob Truax and son of Prairie View were callers at the home of Mrs. Ida Truax Sunday afternoon.

Mr. and Mrs. Roy Stiles and daughter, Margaret, of Evanston were callers at the J. H. Bonner home Sunday afternoon.

Mrs. J. S. Denman spent several days in Waukegan with her sister-in-law, Mrs. W. S. Denman, who is ill.

Mrs. George Beaumont, Mrs. Floyd Beaumont and daughters of Kansasville, Wis., spent Monday afternoon at the Robert Bonner home.

Rev. and Mrs. Ray Eusden and son, Ray, of Newton, Massachusetts, were callers at the homes of the former's uncles, J. H. and W. A. Bonner, Monday evening.

Nine Periods Marked by Mound of Ancient Troy

The mound of ancient Troy, not far from the Hellespont, was discovered many years ago to contain the remains of at least nine periods of occupation and they were numbered from the bottom through fifty feet of accumulated debris to the top and most modern of the ancient cities, dating as recently as the Third or Fourth century after Christ, writes John Drury in the Chicago Daily News.

Troy VI had previously been thought to be the city of Priam which fell to the legendary wooden horse under the Achaeans of Agamemnon and Achilles, if the story could be substantiated at all.

Troy VI was found to have perished in an earthquake, probably about 1300 B. C., as neatly as it can be dated from the evidence of pottery and other articles. On its adobe ruins, using in many cases the same stone and bricks, was built Troy VII, designated "a" and "b," before and after the fire.

Pottery again supplies the best calendar and the fire that razed Troy VII was fixed, independently of legend and Homeric tales, at about 1200 B. C. The best historical evidence places the close of the Achaeans' campaign for the recovery of the beautiful Helen at 1184 B. C.

WILMOT

Mrs. Doloris Brownell, Milwaukee, spent several days last week as a guest of Mrs. G. Faulkner.

The Wilmot Community Band plays in concert at the town square, in Silver Lake on Wednesday evening of this week.

Mr. and Mrs. Ray Bufton entertained the Misses Rosa and Edith Bufton of Kenosha the past week.

Rev. S. Jedele has returned from a two weeks vacation spent with his mother, Mrs. John Jedele, at Ann Arbor, Michigan.

Next Sunday morning there will be English services with communion at 9:30 at the Peace Lutheran church. Mr. and Mrs. Frank Kruckman and Mr. and Mrs. L. Stoen and Joyce accompanied Miss Louise Schmidt to Milwaukee on Sunday evening. Miss Schmidt was a guest during Fair week at the home of Rev. and Mrs. S. Jedele.

Guests of Miss Anna Kronicke over the week-end were Mr. and Mrs. Jacob Kronicke, Milwaukee; Robert Kronicke, Judge George and Miss Dorothy Kronicke, Madison; Dr. and Mrs. T. Kovalt, Chicago; Louis Bruggeman, Miami, Florida; Robert Schmidt and Mr. and Mrs. William Fallows from New York.

John Stavel of Chicago, is a guest of Mr. and Mrs. Fred Faulkner.

There will be a card party at the Holy Name Church hall Wednesday afternoon, August 25. The usual games will be played and refreshments served.

Mr. and Mrs. P. Myers and family, Waukegan, spent Sunday with Mr. and Mrs. Ferdinand Beck.

Rev. John Finan spent Monday in Milwaukee.

Mr. and Mrs. Will Cole from Florida, are guests this week of Mr. and Mrs. Eugene McDougall.

Mr. and Mrs. Ray Ferry, Kenosha, spent a day last week with Mr. and Mrs. T. C. Loftus.

Mr. and Mrs. Winn Peterson and family left Wednesday on an automobile trip to Vaucluse and Withee.

Mr. and Mrs. Paul Ganslin attended a Ganslin family picnic at the Lotus beds on Sunday.

Guests at Carey's during the Fair were Mr. and Mrs. W. Dobyns, Waukegan; Mr. and Mrs. J. A. Nolan; Mr. and Mrs. J. McGregor, Oak Park; Walter Carey and children, Nancy and Dick, McHenry; Anna Marie Carey, Twin Lakes.

Mr. and Mrs. G. W. Lewis, William, Jr., and Laura Lee Lewis, Milwaukee, spent from Wednesday to Saturday with Mr. and Mrs. Frank Burroughs.

Mr. and Mrs. Eldon Goetzler and children and Marie Ave Lallemand, of Milwaukee spent the Fair week with Mr. and Mrs. Marlin M. Schnurr.

Mr. and Mrs. L. H. Cole, of Crystal Lake, were week-end guests of Mr. and Mrs. Frank Kruckman.

Mr. and Mrs. Paschal Allen and daughter, Ruth, and son, Franklin Hatch Allen returned to their home at Green Valley Sunday after a stay from Wednesday to Sunday with Mr. and Mrs. Eugene McDougall. Franklin Hatch Allen took the part of his great grandfather, Louis Hatch, in the Wilmot Centennial pageant.

Wilmot was well represented at the Milwaukee Fair on Sunday with Mr. and Mrs. Don Herrick, Mrs. Minnie Herrick, Mrs. Clifford Rasmussen and Barbara, Mr. and Mrs. Ray Rudolph; Mr. and Mrs. Fred Gauger; Martha Volloi and Floyd Pacey, Mr. and Mrs. Paul Voss, Avis and Darwin, Mr. and Mrs. Clinton Voss; Mrs. Maude Fisher; Virgene Voss and Harold Gauger, attending.

Jeanette Wertz was out from Chicago for the week-end with her parents, Mr. and Mrs. William Wertz.

Grace Sutcliffe, Louis McEwen, Dr. K. McEwen, Melvin Tucker, Oak Park, were out for the day Sunday with Mr. and Mrs. J. Sutcliffe. Nancy LeClear, of Riverside who spent the week at Sutcliffe's returned home with them.

Mr. and Mrs. H. Richards and daughter of Cicero spent the week-end at their Wilmot cottage.

Marlin M. Schnurr accompanied a group of five boys to Madison on Monday to arrange their entrance at the Wisconsin University.

Mr. and Mrs. Hilton Smith of Elgin were recent guests of Mr. and Mrs. T. C. Loftus.

Charles Friss

Charles Friss, 76, died early Thursday morning following a few days illness after a stroke. Mr. Friss was born in Kenosha but spent the greater part of his life in Chicago. The past ten years he has lived at his summer home, where he died, south of Wilmot on the banks of the Fox River.

A solemn requiem mass was read for him at St. Viator's church in Chicago on Saturday morning with burial in the family plot at St. Joseph's cemetery.

Mr. Friss is survived by two sons, Ray J. and Frank of Chicago. His wife preceded him in death.

High spots of the day's events Thursday were the opening parade about the village and the fair grounds, the annual style show, and correct dress contest of the 4-H club girls in the afternoon and the presentation of the centennial pageant. Thirty-two girl members of the 4-H club of the county were entered in the correct dress contest and style show. First award went to Loretta Vanderwerf, of the Brighton Badgers; the next three premium awards in order of their rating are Lenore Kostack, Wood Road; Marguerite Hill, and Helen Ryall.

The pageant presentation of the historic episodes in the life of the village drew enthusiastic applause from several thousand visitors who witnessed the spectacle both evenings. The historical display was opened by a brief introductory address by R. S. Kingsley, of the Kenosha News, who presented the narrative thread of the pageant history to the throng over a loud speaker system.

Following the address by Mr. Kingsley, Miss Anna Marie Carey, of Wilmot, gave a short talk welcoming all visitors to the presentation. As the lights faded on the pageant stage a group of Indian riders appeared on the scene. The Indian scenes of the pageant were staged by the Masonic and Eastern Star lodges of Wilmot. A part in the Indian episode which depicted scenes in the vicinity of the village before the arrival of the first white man was played by Israel Weber, Iroquois Indian chieftain of Oneida, Wisconsin.

The part of Lewis Hatch, Wilmot's first settler who built a log cabin on the site of the present village in 1837, was played by Franklin Hatch Allen, Champaign, Illinois, a great grandson of the Early Wilmot settler.

First Family Arrives

The following episode depicted the arrival of the first family in Wilmot with the members of the family of Mrs. Eugene McDougall, a granddaughter of Lewis Hatch giving the presentation. The scene depicted the arrival of the W. A. Benha family in a covered wagon in 144.

In rapid succession followed the scenes tracing the development of the milling industry in Wilmot, depicted by members of the Wilmot Volunteer Fire department; major fires in the village history; the first school scene with George Hyde as the first instructor; presented by the Wilmot Girl Scouts; the first wedding in the village, that of J. M. Wilbur and Maria

Carpenter presented in episode by Franklin Hatch Allen and Mildred Murdock, Bristol, as bride and groom, with Roy Bufton, Silver Lake, officiating. The Wilmot Mother's club sponsored this scene.

The scene depicting the naming of Wilmot village from the Wilmot proviso, the then topic of the day, was presented under the direction of Mrs. E. Burroughs with Frank Burroughs taking the part of his father-in-law, Joshua Wilber.

The birth of the first white child in Wilmot was presented under the sponsorship of the Catholic church with Ben Nett and John Sutcliffe, Jr., playing prominent parts. The Odd Fellows Lodge depicted the scene of its founding in 1850.

Civil War Scenes

The Wilmot Lutheran church presented a pantomime of the civil war, and the Methodist church enacted the episode which showed the church life of the village. The closing scene of the episode a "Rock of Ages" scene presented a solo by Miss Grace Carey. Mrs. Zona Saterston took the part of the girl kneeling at the cross.

Another scene depicted the installation of the telephone and power lines with John Nett who assisted in the installation of the first phone built by Walter Carey in 1894 taking part.

James Carey took the part of his father, Walter Carey, in switching on the first electric light assisted by Arthur Holdorf; Walter Frank, who raised the pole and Mr. Holdorf connected the wiring. Mr. Holdorf was with the Carey electric plant from its beginning.

A group of men from Company E, Kenosha, enacted the final scene of the dramatic pageant offering World War pantomime.

Miss Nellie Gillmore, 19, member of the Bristol Challenge 4-H Club and daughter of Mr. and Mrs. B. J. Gillmore was winner in the Dairy Queen contest in which there were 18 entrants. She was crowned queen in a colorful ceremony preceding the Friday night's showing of the pageant.

Exhibits were all from the County 4-H clubs and consisted of live stock, poultry, canned goods, sewing and arts and crafts. C. E. Dewey and Frank Baldwin, Kenosha. Dinners were served twice a day by members of the Wilmot Mothers Club. A dance with Benson's orchestra closed the Fair on Friday evening. Over 300 attended.

WILMOT CENTENNIAL AND KENOSHA COUNTY FAIR

Attendance records for the past seven years were shattered during the days of the Kenosha county fair at Wilmot Thursday and Friday when a throng of Kenosha residents, representatives of both city and rural population crowded the Wilmot High School to inspect exhibits and witness the pageant spectacle which marked the celebration of the Centennial of the village of Wilmot.

Conservative estimates place the total attendance at the opening day of the fair at 5000 persons. At the first presentation of the pageant 3000 persons witnessed the colorful parade of events in the history of the village. Friday the crowd was slightly less owing to inclement weather, although several thousands gathered at night for the pageant.

Art of Wood Engraving
Besides the term wood engraving for that art there is the modern term, xylography, adapted from the Greek.

Prickly Pear a Cactus
The prickly pear, known also as the Indian fig, is neither a pear nor a fig, but a cactus.

News
ofANTIOCH and
VicinityRobert Hughes Is
Married In Ottawa

A beautiful double ring ceremony was solemnized Saturday, August 21, when Miss Sylvia L. Johnson, daughter of Mr. and Mrs. Ray Johnson of Marseilles, Illinois, became the bride of Robert W. Hughes of Ottawa, son of Mr. and Mrs. Carl D. Hughes of Lake Villa. The services were conducted by the Reverend Charles McClellan at 11 o'clock Saturday morning in the First Presbyterian Church at Ottawa. A fifteen-minute organ prelude by Miss Charlotte McClellan preceded the ceremony.

The bride was beautifully gowned in white moire tulle, cut on classic lines, with a finger-tip veil. She carried a bouquet of white roses. Attending her as matron of honor was Mrs. Owen Nelson of Ottawa, wearing a coral chiffon gown. The bridesmaid, Miss Dorothy Hughes of Bloomington, sister of the groom, wore an aquamarine net lace gown with coral accessories. Both carried harmonizing bouquets of gladiolus and asters. Sidney Hughes of Lake Villa, brother of the groom, was best man. Serving as ushers were Dick Johnson, brother of the bride, and Owen Nelson.

Following the ceremony a wedding luncheon was held at the Englefield for the immediate relatives and members of the bridal party.

Mr. Hughes is a graduate of the Antioch Township High School with the class of '31, and a graduate of the University of Illinois. For the past year and a half he has been employed as assistant farm adviser of LaSalle County. The bride is a graduate of Marseilles High School, and attended DeKalb State Teachers' College. She has been teaching for several years in schools near Ottawa.

Following a wedding trip through northern Wisconsin, Minnesota and Canada, the couple will be at home in their apartment at 547 Guthrie St., Ottawa.

Among those attending from this county were Mr. and Mrs. Carl D. Hughes and Sidney Hughes of Lake Villa, Guy Hughes of Antioch, and Mr. and Mrs. Frank B. Kennedy of Waukegan.

MRS. HAGEN BEST
DRIVER IN GOLF TOURNAY

Mrs. C. Hagen of Waukegan won the driving contest in the ladies' day golf tourney at Chain O' Lakes Country Club Monday. Mrs. J. J. Morley, Jr., of Waukegan was winner in blind bogey. In the bridge session Mrs. David Deering won first and Mrs. E. M. Runyard won second.

Monday, August 30th, will be the last of the series of ladies' days at the club. The bridge session will be a white elephant party. There will be a prize for the best putter in the golf tourney.

O. E. S. TO SPONSOR DESSERT LUNCHEON AND CARD PARTY
Members of the O. E. S. of Antioch are sponsoring a Dessert Luncheon and card party at the R. & H. Sales room, Wednesday afternoon, September 1, at 1:30. There will be door prizes, and a prize for each table, and also a gift for each person present. Bridge, 500, pinocle and bunco will be played.

MR. AND MRS. SIBLEY
ENTERTAIN AT PICNIC

Mr. and Mrs. N. E. Sibley were host and hostess to a number of friends and relatives at a 1:30 picnic dinner at their home at Bluff Lake Sunday. The afternoon was spent in boating and fishing.

ALTAR AND ROSARY GROUP
TO MEET WEDNESDAY

The Altar and Rosary Society will hold September meeting next Wednesday, Sept. 1st, at 2:00 o'clock in the Rectory Hall, St. Peter's. A short musical program will be given after the business meeting and refreshments will be served.

TIFFANY'S ENTERTAIN AT
BRIDGE-LUNCHEON

Misses Deedie and Mary Tiffany were hostesses at a 1 o'clock luncheon and bridge party at their home on Tiffany Road, Tuesday afternoon. Prizes were awarded to Miss Cornelia Roberts, Mrs. Ruby Richey and Mrs. B. R. Burke.

MRS. SOMERVILLE HOSTESS
TO 500 CLUB MEMBERS

Mrs. Mollie Somerville entertained the members of her 500 club at her home Thursday afternoon. Prizes were awarded to Mrs. Arthur Rosenfeld, Mrs. George Kuhaupt and Mrs. William Rosing.

M. E. LADIES AID TO
MEET WED., SEPT. 8

The regular monthly business meeting of the Methodist Ladies Aid will be held at the home of Mrs. B. R. Burke, Wednesday afternoon, September 8th.

First Supreme Court Session
First session of the United States Supreme court was held in the Royal Exchange in New York, Feb. 1, 1790, with three of the six justices present.

CHRISTIAN SCIENCE CHURCHES
"MIND" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 22.

The Golden Text was, "Let this mind be in you, which was also in Christ Jesus" (Philippians 2:5).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O the depths of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out! For who hath known the mind of the Lord? or who hath been his counsellor? For of him, and through him, and to him, are all things: to whom be glory for ever" (Romans 11:33, 34, 35).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Divine metaphysics, as revealed to spiritual understanding, shows clearly that all is Mind, and that Mind is God, omnipotence, omnipresence, omniscience,—that is, all power, all presence, all Science. Hence all is in reality the manifestation of Mind" (p. 275).

Church, Tower, Separated
The church at Warmworth, near Doncaster, must be unique, says Pearson's London Weekly. The tower is half a mile distant from the church itself. It was built in this peculiar fashion during the twelfth century. Another strange church is at Arundel, Sussex. The chancel, adjudged to be the private property of the Duke of Norfolk in 1879, was walled off from the main church. A high altar was erected and services are held there, while, on the other side of the wall, Anglicans worship according to their own rites.

Bass Drum Always Noisy
The bass drum in a large orchestra is usually kept covered during the playing of a piece in which it is not required, in order to keep it absolutely silent. If left uncovered it has a strong tendency to rumble in sympathy with the other instruments.—Collier's Weekly

Cool Organdy for Midsummer Dance

By CHERIE NICHOLAS

DURING midsummer moments when a high-registering thermometer gives promise that torrid weather has decided to prolong its stay even to the point of trespassing on the rights of autumn then is it that dainty cool lingerie frocks swing into the spotlight in all their glory.

Especially this season the craze seems not to have abated for frocks of simple, inexpensive, yet fine and lovely wash materials. The younger set adore the pretty dainties, organdies, dotted swisses for, their party frocks and when they go away to school this fall many a college-faring girl will slip one or two of her summery wash frocks into her wardrobe trunk knowing full well that she will get any amount of wear out of them ere the cool fall days come upon us.

If you have never tried shadow print organdie for your midsummer-night party frock, do it now! You can get this lovely material in pastels or white and it makes up beautifully, and best of all it costs such a trifle compared with luxury-type weaves, while it "looks a million." The charming gown on the seated figure is made of white shadow print organdie and we venture to say when this gown dances hither and thither on the ballroom floor or under the stars at the country club it will be voted among the prettiest. The fact that it is picturesquely and fashionably full-skirted makes it all the more enchanting. The corsage of flowers in realistic coloring is in gay contrast thus adding another beguiling note.

Some there are who prefer statuettes slenderizing lines rather than bouffancy.

The princess gown to the left will

tune to the liking of those who prefer the slim and tall silhouette. There is an exquisiteness expressed which reflects the new trend toward meticulous detail such as fine hand-tucking and myriads of wee self-material covered buttons such as fasten this princess all the way down the front. Here is really a very charming way to make up organdie if you like to be outstanding in distinctive dress.

It is not only that delightful lingerie materials are favored for party frocks but the tendency all the way through the season is to wear dainty frilly blouses in the daytime of exquisitely fine cotton sheers, also prettily feminine neckwear and beguiling accessories—jabots, ruffled halter fronts and other such flattering items. With the approach of fall, tailored suits are coming out in full force and the fad of the moment is to wear with them the frilliest fluttery blouses that fancy might picture. Fine handwork is lavished on the high-quality types.

For these handmade blouses sheerest of fine white organdie or daintiest batiste or filmy handkerchief linen are first in favor. Popular too and heartily to be recommended are the attractive allover embroidered organdies that are definitely practical and pretty for the making of the blouse to be worn with one's jacket-and-skirt tailleur. It should by all means have a sprightly frill fashioned after the manner of the model pictured in the inset to the right. Trimmed with lace edging, as is this blouse, makes the effect all the more daintily feminine and alluring.

Herman's Features
Special Food at Resort

"Once tried, always eaten," says Ed Knickelbein, proprietor of Herman's Resort at Bluff Lake. He was referring to his famous specialty, southern fried shrimp, which may be had at all times at the popular resort.

This week Knickelbein is making preparations for his 7th annual carnival masked ball to be held Sunday, September 5. There will be favors and prizes, and an excellent orchestra will be engaged to furnish the music for the ball which has become a popular event in the lakes region.

Nine Periods Marked by
Mound of Ancient Troy

The mound of ancient Troy, not far from the Hellespont, was discovered many years ago to contain the remnants of at least nine periods of occupation and they were numbered from the bottom through fifty feet of accumulated debris to the top and most modern of the ancient cities, dating as recently as the Third or Fourth century after Christ, writes John Drury in the Chicago Daily News.

Troy VI had previously been thought to be the city of Priam which fell to the legendary wooden horse under the Achaeans of Agamemnon and Achilles, if the story could be substantiated at all.

Troy VI was found to have perished in an earthquake, probably about 1300 B. C., as nearly as it can be dated from the evidence of pottery and other articles. On its adobe ruins, using in many cases the same stone and bricks, was built Troy VII, designated "a" and "b," before and after the fire.

Pottery again supplies the best calendar and the fire that razed Troy VII was fixed, independently of legend and Homeric tales, at about 1200 B. C. The best historical evidence places the close of the Achaeans' campaign for the recovery of the beautiful Helen at 1184 B. C.

Matching Lace Trims Silk Sheers

By CHERIE NICHOLAS

NO MATTER how much your taste and the general tenor of your life may call for practical tailored and sporty-type clothes, none other than a really and truly dress-up dress will answer to occasion. If anything more apropos can be found than either of the stunning models pictured in the way of dressiest-dress gowns that tune graciously to afternoon functions, garden parties and such, pray tell where is it?

The illustration presents exactly the type of dresses we have in mind. Here you see two gowns that are one hundred per cent voguish. They are modern up to the instant, and they are fascinating in regard to nicety of detail and they carry that air of sartorial elegance which every woman of discriminating taste covets. Make it yourself, have it made, or buy it ready made as you will, a dress of the type of either of these handsome frocks will give you endless satisfaction, for no matter what comes up in the way of social affairs unless extreme formality demands ultra full-dress attire, gowns such as pictured class their wearers as among the those-present in the best dressed group.

This gesture of dying lace in exact match to the silk sheer it trims is proving a most exciting venture to designers in that it invites such free play of imagination. Then, too, the lace being the identical color enhances the dress without making

it look too fussy or overdone—gives it the exclusive accent that many covet but few attain.

Current collections include both dark and light sheers with matching lace trims. A costume done in monotone color scheme of either the very fashionable spruce green or beetroot red would be outstanding. Grays in the pastel shades are greatly stressed, also rose-beige.

As to swank styling the redingote theme prevails since it offers such excellent opportunity to introduce border effects with lace insertions after the manner shown in the charming dress to the left in the picture. This redingote gown is a most fetching style for the cocktail hour. It is made of gray silk marquisette tastefully embellished with insets of matching lace. The huge red straw open-crowned hat worn with it plays up in dramatic contrast to the demure gray of the dress. It is flower-trimmed and has black streamers that tie under the chin.

The other young woman seeks and finds midsummer coolness in a gown of beguiling rose-glow silk marquisette trimmed with insets of matching lace. The tiny self-fabric buttons add to the choiceness of this dress. Short sleeves and short gloves also do their bit toward giving smart style accent. The modish poke bonnet is a blue straw with violet and old rose velvet ribbon trim.

© Western Newspaper Union.

FARM TOPICS

CITES RULES FOR TRUCK OPERATION

Full Loads, Backhauls, Are Important Points.

By R. C. Ashby, Associate Chief in Live Stock Marketing, University of Illinois—WNU Service.

Full loads, steady use, high percentage of backhauls and careful handling are four essentials in successful operation of motor trucks.

These facts are pointed out in a study which the department of agricultural economics, University of Illinois, college of agriculture, has completed in co-operation with 15 truck operators who kept records of their activities in hauling farm products over a one-year period.

Three general laws of business are demonstrated by the data obtained, even in the small number of trucks on which records were kept. In the first place, costs decrease with the volume of output, in this case miles covered. Second, lower costs tend to result in lower prices or charges for hauling, and, third, total earnings increase as volume increases.

The greater the number of miles driven, the less the operating cost a mile and hour because the fixed costs are distributed over more units. Cost of operation a mile for trucks with 25,000 miles or more of use was 38 per cent lower than for the group with 15,000 miles or less.

Return loads mean more profits. Trucks which brought back a high percentage of return loads consistently were among the group having the lowest operating costs. Although there was not much correlation between costs a mile and average weight hauled, it was found that a fully loaded truck reduces the ton-mile costs considerably. In the cost of hauling live stock, the mileage required to pick up a full load is an important item.

For the 15 trucks the average cost including operating labor was 7.2 cents a mile. Omitting operating labor, driver and helper, the average cost was 4.78 cents a mile. The trucks averaged 9.1 miles a gallon of gasoline, 519.6 miles a gallon of oil, 27.3 ton-miles a gallon of gasoline and 15.2 miles an hour of operation.

Rations Protect Birds'

Health, Expert Explains

In spite of high feed prices and low returns for eggs, experienced poultrymen are using well-balanced rations instead of cheaper feeds that lack essential nutrients, says Dr. H. S. Wilgus, Jr., poultryman for Colorado State College Experiment station.

These poultrymen have learned that many of the cheaper rations do not provide necessary vitamins and proteins which protect the health of the birds and of the chicks and poults.

Poults require a higher percentage of protein, vitamins and minerals than chicks. The needs of chicks or poults for these nourishing elements in certain feeds are highest during the first week of life, and gradually decline until the birds approach sexual maturity.

More of certain vitamins are needed in breeder rations than in laying rations in order to insure high hatchability and vigorous chicks or poults. It therefore is more economical and desirable to use rations adapted to these specific purposes.

Calf Feeding

Creep-fed calves started on grain before they go on grass will continue to go into the "creep" to eat, even though they run with the cows in the pasture, according to the College of Agriculture, University of Illinois. Equal parts by measure of shelled corn and whole oats make a good feed for calves. About 20 bushels of grain and 200 pounds of hay may be eaten by a calf up to weaning time in the fall, when they are usually sold at weights of about 700 pounds at nine or ten months of age.

Young Turkey Ration

The Missouri College of Agriculture reports good results from this economical ration for growing poults: For the first 8 to 10 weeks, supply a mixture of 210 pounds of yellow corn meal, 75 pounds of bran, 50 pounds shorts, 25 pounds alfalfa leaf meal, 50 pounds meat scrap, 50 pounds soy bean meal, 25 pounds dried milk, 5 pounds salt and 10 pounds cod liver oil. This ration is kept before them all the time, with water and granite grit.

Matching Headdress and

Heels Offer Gala Touch

Matching headdresses and heels are providing a gala touch to simple summer outfits worn by attractive young spectators at smart mid-western country clubs. Dusty pink frocks combined with beige turbans and ostrich skin pumps with beige-colored built-up heels are a popular combination. On many of the smartest white ensembles, effective accents are furnished by paisley print headbands and heels.

SPECIALIZED TRAINING for Early Employment and Careers

High school and college graduates who will seek employment or careers in commerce are invited to send for literature.

The school offers specialized courses of training which prepare graduates for employment upon graduation, as secretaries, accountants or executive assistants, in which positions they will have unsurpassed opportunity to qualify for larger responsibility.

Due to the recovery of business and the expansion of organizations, there is a spirited demand for business-trained graduates, with better than average opportunities for advancement. Early enrollment is advised.

The school maintains a Placement Bureau for the benefit of graduates, alumni and its employer clientele. . . . No charge is made for this service.

FALL TERM BEGINS TUESDAY, SEPT. 7

Call, write or phone for literature

LAKE COLLEGE OF COMMERCE

14 N. Genesee St. Tel. Majestic 3450 Waukegan, Ill.

LACE TWO-PIECE
By CHERIE NICHOLAS

From Paris comes the word that whereas lace and net are featuring strong for evening fashions, they are far from being neglected for street and afternoon wear. In fact are going over strong in tailored daytime versions. The dress shown is a smart daytime mode suitable, cool and likable for wear in the city. In dusty pink, the now-so-fashionable color, the dress is a two-piece and the flower and the belt are in a deep wine red. This shows the renewed accent placed on dark red, beetroot red, Dubonnet and similar red accessories for summer and early fall.

Exciting Features Mark

Fashions for This Season
Fashions have much that is new and exciting about them. "There's something in the air" that has put all the designers on their mettle. They have outdone themselves in creating beautiful, elegant, wearable clothes.
The cycle is complete and we are back again in a period of trimmings. Throughout the mode, but especially for evening, applied decoration, such as embroidery, beading, spangles, paillettes, encrustations and handwork of all kinds, is almost as widely used as it was before the war.
The silhouette adheres to the natural figure, with normal waistline, smooth, slightly rounded shoulders and molded upper stratum. The figure, as a matter of fact, should look corseted. The clothes are basically simple and it is upon this simplicity heightened by accessories, trimmings, rich fabrics and color that fashion has relied for its newest aspects.

SMART SHEER WOOL
By CHERIE NICHOLAS

The midseason dress problem when it is too warm to wear this and too cool to wear that need no longer set any woman into a worry and flurry for the answer has been found in the new sheer wools that are the very thing to don at the first hint of autumn's approach. Pictured is a stunning dress that will bridge from summer to fall perfectly. This distinctive tailored frock combines sheerest wool weave in attractive dusty rose coloring with chic accents of snowy pique. Pleated-in sleeves and an intriguing pleated skirt convey early style messages. Note the high crown in her smart fall felt. As the new season advances crowns keep going higher and higher.

Historic Spot on Campus
Among historic spots on the campus of the United States Naval Academy is the Maryland state capital, the fifth place (1783-84) to be used by the Continental Congress for sessions.

HICKORY

Billy Nielsen from the U. S. Navy in San Diego, California, arrived home Friday on a 20 day furlough.

The Pullen family held their annual reunion at Little Silver Lake on Sunday, August 22.

Miss Caryl Tillotson came home Sunday afternoon after visiting her cousin, Mrs. Gerhardt Lange of Hebron, a few days.

Mrs. Andrew Pedersen spent Tuesday of last week with Nettie Wells.

Mrs. D. B. Webb of Millburn spent Friday with Mrs. Pickles and Mrs. Thompson.

Mr. and Mrs. Henry Hunter and Mr. and Mrs. Wilbur Hunter and Jerry visited the Robert Hunter home in Richmond Sunday afternoon.

Kelt Nielsen and a friend from California visited the Curtis Wells home over the week-end.

Mrs. Andrew Pedersen returned to her home in Waukegan on Thursday after a few weeks visit with relatives here.

Mr. and Mrs. R. C. Bishop and Homer, Malcolm and Eloise, also Miss Grace Tillotson of Kenosha called at H. A. Tillotson's Sunday evening on their way home from a day at Lake Geneva.

Mr. and Mrs. Nels Gussarson and children of Chicago visited the Hugo Gussarson home Saturday evening.

Miss Josie Mann and niece Margie Mann of Waukegan spent Sunday and Monday at the A. T. Savage home.

Mr. and Mrs. Max Irving and family visited the Andersen home at Lake Villa Sunday afternoon.

Miss Margie McQuestion of Kenosha is visiting her cousins, Lucille and Dorothy Carney, this week.

Mr. and Mrs. Fred Gillings of Gurnee visited the A. T. Savage home Sunday evening.

Rev. Albert Pierstorff will preach at the Millburn church, Sunday morning, August 29. Mrs. Mary Lake will give a Temperance talk to the children in Sunday school.

Household Hints

Sugar crystals in jelly may result from excess sugar, overcooking, lack of sufficient acid in fruit, or allowing the jelly to stand too long before sealing.

Boiling water is the best treatment for peach and other fresh fruit stains. That heavy streak at the bottom of a cake usually is due to incomplete mixing of ingredients.

Cube sugar may be saturated with orange or lemon juice and dried to be served later with iced tea.

One tablespoon of lemon juice added to each two cups of fresh berries greatly improves their flavor.

Hot, boiled and mashed white potatoes are good in making short cakes and puddings. They not only save flour, but require less shortening.

Don't pack jars too tightly when preserving fruits and vegetables. Leave a space of at least half an inch at the top for liquid.

Woodenware used in mixing foods should be scalded often.

Never use vinegar to clean brass. Though it cleans at first, it soon causes tarnish. The proper materials for cleaning brass are oil and rottenstone.

A good egg, when broken, will have a large amount of thick white distinguishable from the watery white layer surrounding it, and the yolk will be uniform in color and firm.

Beauty Hints

By Jane Heath

"How can I swim in the afternoon and still keep my hair groomed for dinner?"

This is the great summer beauty problem of thousands of American girls who lead active, outdoor lives all day yet insist on looking coiffed and smartly dressed in the evening.

And here's the answer — a new and practical idea.

Make swimming an asset instead of a liability to your hair. Use the time—and the bathing cap—to give yourself a fresh curl with "wavers" made just for this purpose. These little green rubber curlers now come in a new midsize which will tuck trimly under a rubber cap to hold your wave while you swim. Only their small size and softness make possible this new beauty secret.

To keep the hair neat at the back of the neck, insert ends of the hair in the slit. Roll up on the wavers as high as possible, to keep hair out of the water. Fold the rubber ends underneath and button them together out of sight under the hair as shown in the sketch. Then, if water does seep through in spite of all efforts, the rolls are so neatly wound that the bathing cap can be removed without embarrassment. The hair will dry quickly in its original "set," in about the time it takes to drive home from the beach.

And now, refreshed from your swim, with the evening before you, remove the wavers, to find rows of soft ringlets ready to go places with your most glamorous dance frock.

LAKE VILLA

The Ladies' Aid Society will meet Wednesday afternoon, Sept. 1, with Mrs. John Meyer, at her home and you are very welcome. This will be a social as well as a business meeting.

Bruce Hamlin spent the past week in Evanston with his mother.

F. R. Sherwood was the guest of friends in Chicago for several days recently.

Mac-do camp for girls on the Henry Atwell place closed last Friday after a very successful season.

On Saturday evening of this week, August 28, the Ladies' Aid will hold an ice-cream social and have a short program in connection.

Mr. and Mrs. Russell Norton and George E. Gray of Chicago were guests of the Paul Avery family on Sunday.

Miss Pauline Nader who has been with her sister, Mrs. Almquist, at Superior, Wisconsin, for several weeks, returned home here Saturday evening. Her father, Frank Nader, and her sister, Ellen, accompanied by Bob Madsen and Leonard Schneider, drove up for a short stay and brought Pauline home.

Miss Bojan Hamlin is enjoying a few weeks vacation from her duties at the clinic before starting on her studies at Bryn Mawr, Pennsylvania.

Mrs. Gertrude Perry of Antioch was a guest of Mrs. Fred Hamlin at a luncheon on Monday.

The card party given by the Antioch Cemetery Society at the Village hall last Thursday evening was quite well attended and \$26.00 was cleared for the Society. Prizes were awarded to Will Fish, Mr. Jergens, J. Mitchell of Libertyville, Mrs. A. Kapple, Mrs. G. White and Miss Merle White of Round Lake, Mrs. Schank of Libertyville, Mrs. V. Nixon, Mrs. Paul Avery, Mrs. Joe Nader and Miss Lindsay. Mrs. Nickerson won the chair set donated by Mrs. Johnson and Mrs. L. Cribb of Antioch and Mrs. Fred Hamlin won the door prize.

Mrs. Lester Hamlin and sons, Charles and Allan, spent Tuesday with her mother, Mrs. A. Nauta, in Waukegan.

Mr. and Mrs. Clyde Helm of Champaign came last week to visit their

father and sister, George Helm and Phyllis Helm, and Mr. Helm and Phyllis and Miss Anna Seeck accompanied them on a trip to Bellwood to visit relatives one day last week.

Mr. and Mrs. Fred Bartlett and family and Mrs. Bartlett's mother drove to Milwaukee to spend the day.

Mrs. Louise Thayer entertained her niece and husband from Sterling, Ill., last Thursday, and on Sunday Mr. and Mrs. George Murrie, Misses Alice and Laura Murrie and Lawrence Thayer were her guests.

Mrs. Frances Barnstable has so far recovered from her recent illness as

to be able to be about the house and to ride out a little.

Mrs. Clara Wilton was called to Chicago last week by the illness of her sister there, and remained for a few days.

The unpardonable sin is the one committed by the other fellow.

Yesterdays

What Was News in Years Ago, in Western Lake County

Forty-one Years Ago

During the storm of Friday afternoon the barn on the Tillotson farm, at Pikeville, was struck by lightning, and together with its entire contents, including hay and grain, was totally destroyed.

There are numerous applications for houses to rent in this village and it seems that it would be a good investment for some of our capitalists to erect houses for this purpose. We have several applications but nothing suitable to supply the demand.

A remainder of the Midway Plaisance, in the person of two Italians, with horn and concertina, haunted our streets Monday morning, gathering in stray nickels and murdering music.

The exhibition by the McCormick harvester, on the farm of Ira Webb, last Saturday, with witnessed by about fifty farmers. The machine cut the corn in first class shape.

Mrs. Dr. Ames is visiting in Chicago.

Mrs. George Webb and children went to Chicago Tuesday.

John McCormick, who has been telegraph operator at the W. C. depot for some time, left Monday morning for Waupaca, Wisconsin. His place will be taken by Lev Rinaer, who had this position formerly.

H. Paul Fairman, late of The News force, was taken into membership in the M. E. church in this village, Sunday last. We trust and have every reason to believe Paul will make a good and faithful member of the church.

Miss Ida Horton was, at the same time, taken in on probation.

Mr. and Mrs. Will R. Williams entertained friends at a card party at their residence, on Thursday evening last. Progressive euchre was indulged in until about eleven o'clock, when ice cream, cake and lemonade were served. Fifteen games were played, and the lucky guests were: Lady's first, Mrs. J. E. Perkins, a vase; gentleman's first, J. J. Burke, wisp broom; lady's consolation, Mrs. W. F. Hodge, cake soap; gentleman's consolation, J. E. Perkins, pen knife. A very pleasant evening was enjoyed by all.

Mrs. John Effinger, Alfred Effinger, Albert Chinn, Mr. and Mrs. Harry Sweet, Mr. and Mrs. Gid. Thayer, Frances Elliott, and Miss Devlin were among the Antioch visitors to Waukegan, Monday.

James K. Pollock of Wadsworth, was a caller at The News office Monday. Jim, as he is familiarly known, is always a pleasant and a welcome visitor.

Mr. and Mrs. J. M. Wood, of Valparaiso, Indiana, visited Antioch friends the fore part of the week. Mr. Wood informs us that he will locate at East Chicago, Indiana, having secured the principalship of the East Chicago school for the coming year. We congratulate both the school and Mr. Wood on the appointment.

Mr. J. L. Harden and daughter, Maude, returned last Wednesday after a very pleasant trip east. After viewing Niagara Falls they visited relatives at different points in New York. Miss Maude took several delightful sails on the waters of Lake Ontario, and visited the celebrated Mount Albion, the burial place of the Pullmans.

The yearly meeting of the Disciples of Christ will be held in the church at Antioch, commencing Friday evening, August 30, and continuing over Saturday and Sunday. G. W. Pearl, the State Evangelist, has signified his intention to be at the meeting, and other speakers are expected. The neighboring churches are cordially invited to attend. The Antioch congregation will try to furnish entertainment to all visiting brethren.

Ten Years Ago

Mr. and Mrs. Frank Weachter and children of Omaha, Nebraska, spent the week with Mr. and Mrs. C. L. Van Patten. Mrs. Weachter is a niece of Mr. Van Patten.

The Ladies' Guild of St. Ignatius' Episcopal Church held their regular business and social meeting yesterday afternoon at the home of Mrs. Homer Case at Channel Lake.

Mr. and Mrs. Conrad Buschman who are making an extensive tour in the northwest, left Duncan's Station, British Columbia, last week for Alaska, where they will tour the Klondike region.

Mrs. Hubert White of Russell was hostess at her home Sunday at a four course dinner given in honor of the 26th wedding anniversary of her parents, Mr. and Mrs. Andrew Harrison, of Antioch.

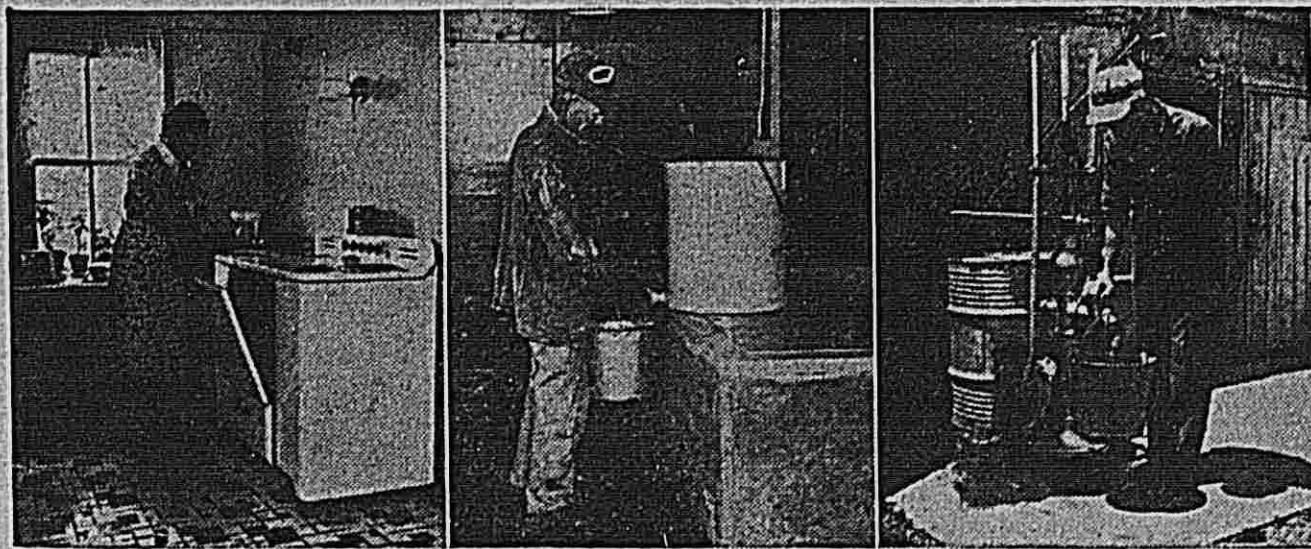

Mrs. E. M. Runyard was hostess at a dinner party at her home last Saturday to Dr. and Mrs. Charles Daniels and Mrs. Castle of Waukegan and Mr. and Mrs. J. J. Morley of Antioch.

Mrs. Selma Rhymer, Mrs. Adolf Pesat, Sr., Mrs. Adolf Pesat, Jr., and children returned last Sunday evening from a two weeks visit at the home of the parents of Mrs. Pesat, Jr., in Sioux Falls, South Dakota. They made the trip by auto and enjoyed good roads, but found crop conditions poor, as they are badly in need of rain throughout the states of Iowa and southern South Dakota.

Mr. and Mrs. Chris Reilly of Chicago spent last week with Mrs. C. Joyce, at the Joyce cottage at Channel Lake.

Thomas Sullivan, who has been very ill for some time, is reported as somewhat better. He is sufficiently recovered to be able to sit up for a short

Electricity Makes Farm Work Easy

"Farms Electrified" Open for Inspection—View at the Elsbury and McMillan farms where visitors may see how electricity does many important chores about the farms and in the homes. Left to right: Mrs. Elsbury in her electric kitchen; Mr. Elsbury drawing water from the electric dairy water heater; Paul McMillan at the special electric pump he rigged up on the McMillan farm.

TREVOR

Mrs. William Boersma, Sr., Wheatland, spent Tuesday at the home of her son, William Boersma, Jr.

Mrs. A. Robinson and Mrs. H. Burtzall, Forest Park, Ill., visited the former's niece, Mrs. John Geyer, on Tuesday.

Guy Loftus, Wilmet, was a Trevor caller Tuesday.

Mr. and Mrs. Jake Kaltenberger and daughter, near Wilmet, were Tuesday evening callers in Trevor.

Henry Meyer, Chicago, accompanied Charles Getting to Racine Tuesday.

Mrs. Henry Ernie, daughter, Ilene, with friends spent the past week at their cottage.

Mrs. William Boersma spent Wednesday with Mr. and Mrs. Paul Ganzlin, in Wilmet.

Tuesday visitors at the Elmie, Fleming home were Mr. and Mrs. William Pohlman, Palatine, Ill., and Mr. and Mrs. Stephen Fleming and children, Burlington, Wis.

Louis Oetting accompanied his brother, Carl, and K. M. Stockton, by motor to Mankato, Minn. From there he will go to Des Moines, Iowa, time daily.

Mrs. James McMillan of Grayslake, is spending a few days at the home of her parents, Mr. and Mrs. J. J. Morley.

Mr. and Mrs. Jacob Drom have been visiting the Proctor, Avery and Barber families at Chetek recently.

Mr. and Mrs. Willard Chinn entertained a number of guests Sunday evening, the occasion being their first wedding anniversary. Cards were played and supper served.

to visit his brother, Fritz Oetting.

Mr. and Mrs. Walter Lasco, and children and Miss Florence Hagie, Lake Benedict, called at the Charles Oetting and Joseph Smith homes on Wednesday evening.

Ben Wukis, Fond du Lac, Wis., was a business caller in Trevor Monday.

Mr. and Mrs. Leonard Schmiedcamp, Chicago, were Trevor callers Saturday.

Harry Dexter entertained his son from Chicago on Sunday.

The Willing Workers met at Rock Lake picnic grounds on Thursday.

A potluck lunch was served.

Mr. and Mrs. Neilsen and son, Gilbert, Racine, were Sunday visitors at the Alfred Dahl home. Gilbert remained for a week's stay at the Dahl home.

Mr. and Mrs. George Barhyte, Chicago, are staying at the home of the former's nephew and wife, Mr. and Mrs. Charley Barhyte.

Among those attending the state fair at Milwaukee on Monday were Mrs. Albert Weinholz and son, Vernon, Mr. and Mrs. William Kasting, Jr., and Vernon Hollister.

Mr. and Mrs. A. J. Baethke, Forest Park, Ill., spent Monday and Monday night at the Joseph Smith home. Monday afternoon Mr. Smith accompanied Mr. Baethke to Kenosha.

Herman Oetting, Berwyn, Ill., spent the week-end with his uncle, Charles Oetting and family.

A large number from Trevor and vicinity attended the fair and centennial celebration at Wilmet on Thursday and Friday. They pronounced the pageant worth going miles to witness.

Mrs. W. Beland entertained a sister,

from Chicago on Thursday.

Carl Christensen is a patient at the Kenosha hospital recovering from an appendix operation.

Henry Miller, Chicago, visited at the Charles Oetting home Thursday.

John Mattis and Klaus Mark were business callers in Racine on Wednesday.

Betty Jane Adelson, Kenosha, and Betty Jane Beckgaard, Racine, are vacationing this week at the Klaus Mark home.

Mrs. P. Adelson and sons, Nels and Clifford, Kenosha, spent Wednesday at the Klaus Mark home.

Mrs. Luanah Patrick and son, Milton, spent Sunday afternoon with her son, Byron Patrick, and family at Salem.

Mrs. Ottilda Schumacher visited her daughter, Tillie Schumacher, in Bristol Sunday.

Mrs. Elmer Fleming entertained her mother, Mrs. David Elfers and children, near Silver Lake, on Sunday.

Heart Beats and Fear

Many people believe that when they get scared their hearts beat faster and faster. The truth is that the action of the glands, particularly the adrenals, during fright is such as to cause a slight initial speeding up of the heart when first scared, and this is followed almost immediately by a slowing up of the heartbeats and then the beating becomes stronger—but not faster, declares a writer in Pearson's London Weekly. People mistake the pounding of their hearts for speed. These strong beats raise the blood pressure, pump sugar to the muscles, cause fatigue to be banished and prepare the body for defending itself. The heartbeats are stronger but not much faster.

Cheese Wizardry

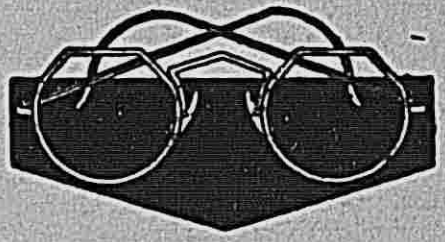

Cheeses, every epicure recognizes, rely for their distinctive flavors on a fungus called penicillium. Its function is to create the mold without which most cheeses would be distastefully anaemic. Included in its family group are innumerable sub-varieties, each with a singular characteristic. Those famous Roquefort caves in France, where millions of cheeses ripen annually, are infested with Penicillium Roqueforti, and its presence accounts for this local industry's world-wide reputation, according to London Tit-Bits Magazine.

ELECTRICITY MAKES FARM LIFE EASIER

Farmers of today, through use of modern machinery and the adaptation of electricity to once tiresome tasks, need not envy their city cousins as far as comfort and convenience are concerned.

An outstanding example of how one northern Illinois farmer has eliminated much of the labor from farm life is seen in the Elsbury place, west of Gurnee on Grand Avenue.

According to E. E. Elsbury, owner of this 80 acre farm, many of the old tedious, time-taking jobs are now merely a matter of throwing a switch. For example, he says, an electric pressure pump supplies deep well water for yard, barns, and house; a milking machine almost automatically performs a twice-daily chore; an 8-gallon heater provides water for sanitary dairy purposes and milk cooler cools milk to 40 degrees in 1 hour after milking; a brooder speeds up chick production; an electric clipper "barbers" the cows;

and a set of power-driven tools in a fine work-shop, keeps farm machinery in tip-top shape. Even Mr. Elsbury's shaving is done with one of the new electric dry shavers!

The farmhouse, too, enjoys benefits of electricity. Mrs. Elsbury's home is as handsomely equipped as are those of her urban friends. Her modern bathroom, where an electric water heater keeps hot water always on tap, is one of the prizes of the household. In her "electric kitchen" are range, refrigerator, ventilating fan, toaster, roaster, and mixer. Her laundry is electrified with washer, ironer, and iron. Of course, home and outbuildings are lighted.

For those who want to see how this practical farmer has applied electricity and modern methods to farming, arrangements have been made by the public Service Company to permit visitors to inspect his farm daily (except Sunday) between 1 and 5:30 p. m. Officials of the Company point out that the Elsbury place is in no way an experiment. Privately owned and privately operated, it is an average well-run farm whose owner has taken advantage of the extension of service through northern Illinois' farmland.

FARM TOPICS

TURKEY PROSPECTS PUZZLE BREEDERS

Too Early to Figure Cost of Feed for Poults.

By E. Y. Smith, New York State Agricultural Extension Division—WNU Service.

A fair price for poults which will enable breeders to break even and perhaps make a little money in spite of high feed prices is the first point in the turkey outlook.

The outlook applies to those who buy poults from New York state breeders. Cornell veterinary college has found that pullorum disease is not important in the state's turkey flocks, and those tested have been found free of this disease. According to authorities in some other states, pullorum infestation is serious.

Second point in the outlook is that commercial growers will probably face higher feed prices for poults the first part of the growing season, which is not so serious because total consumption is not large during the early part of the season.

Finally, if the expected good wheat crop develops, together with a good corn crop, the probabilities are that turkey rations will be considerably lower from July on through the growing season. Since that is when turkeys eat the most feed, a reduction in price is more important at that time.

These facts indicate a "more favorable" condition for the 1937 turkey grower, though not a "particularly favorable" one.

Portable Brooder House

Favored by Specialist

A round - roof portable brooder house, lighter in weight and easier to move than the ordinary shed-roof type may well be one of the factors in the success of the farm poultry enterprise in 1937, according to Cora E. Cooke, extension poultry specialist, University Farm, St. Paul.

Besides being more portable, the house is easier to heat, because of the smaller amount of head space. Another advantage is the window arrangement, for on all four sides there are two windows of barn-sash size. The windows distribute light over the floor evenly, preventing crowding and the development of too much heat from the sun in one place. The window arrangement also provides ventilation to fit all weather conditions. In hot weather windows on the four sides may be opened to allow for excellent cross ventilation.

A double floor, which protects the young poultry from cold, is 12 by 14 feet—large enough to accommodate 400 baby chicks or 250 young turkeys. The matrix, or form, for the round roof is easily made by fitting 1-inch material together.

Sloping roosts are constructed along the sides. A 500-chick brooder pastove may be used in the house.

Feeding porches, 12 by 14 feet, may be attached to the house. For chicks, 1-inch mesh wire should be used; for turkeys, 1 by 2-inch mesh.

Discing for Lespedeza

Korean lespedeza may be seeded safely in oats by discing or drilling the seed into the soil with the oats or after the oats have been seeded. The method of seeding may be similar to that of red clover in wheat, with oats or in thin pastures, says the Indiana Farmer's Guide. Most seedlings are broadcast and covering more than an inch in depth may prohibit germination of the lespedeza. If the seed is to be discing into the ground with oats, cover as lightly as possible.

Raising Broiler Birds

The cross of Rhode Island Red hens and Barred Rock males is a popular broiler bird. It is said that they grow faster and are easier to raise than most pure breeds. Broilers are started on a chick starting ration and can be given hard grain after a short time or raised on all mash feed. A special broiler ration gives well fleshed birds. The loss in dressing broilers ranges between 13 and 14 per cent.

Down on the Farm

The estimated 1936 production of hay in the United States is 70,165,000 tons.

Approximately 4,000,000 acres of Texas land were terraced or contoured in 1936.

Wool increases greatly in value, the same as any farm product, when it is properly grown and prepared for market.

Any large-scale war against rats should be started with poison, gas, or blocking; never with traps.

There are two kinds of soil erosion—that caused by wind and that caused by water.

Good pasture reduces the cost of feeding live stock. Agronomists at Ohio State university say that money spent for pasture improvement should be classed as an investment rather than an expense.

TO OPEN FREE FARM FOR DRUG ADDICTS

U. S. Institution in Texas to Be Ready in 1938.

Fort Worth, Tex.—Sometime in 1938, the first patient will enter the new United States \$4,500,000 settlement designed to cure narcotic addicts.

The buildings are expected to be under construction by the end of 1937. When completed, there will be room for 1,200 persons addicted to drugs to take treatments and work at the same time. Quarters will be provided for 250 doctors, nurses and other attendants.

The hospital was the answer to a continuous plea from doctors, welfare workers, police departments and citizens. The first such farm was built at Lexington, Ky., to care for federal prisoners addicted to narcotics. The new one, a few miles southeast of Fort Worth, is almost a duplicate of the Louisville plant in plan, but its operation will be considerably different.

"Voluntary" Patients.

Patients accepted here will be "voluntary" and many are expected to pay their expenses. Most undoubtedly will be from the list of persons convicted of selling or possessing narcotics. The paying patients will contribute \$1 a day to their upkeep and help reduce the government's loss in curing them by tending animals on the farm and making their own clothes in farm shops.

Those accepted must sign a pledge to follow the prescribed treatment and to remain at the hospital until the cure is complete.

Regulations provide that those who are able must pay \$1 a day for their upkeep. Narcotic law enforcers, however, believe few addicts will be found with the funds to pay their own way.

The system of cure devised for the Louisville farm by Dr. Lawrence Kolb probably will be followed. The Kolb treatment includes a complete mental and physical examination for each new patient. Many of them have diseases, such as tuberculosis, which must be cured before they are taken off the drug habit.

Two Procedures Followed.

One familiar treatment for those using drugs involves the simple reduction system—giving the addict less and less of the drug he craves until the habit is overcome. Dr. Kolb, however, is one who prefers the "cold turkey" system—an abrupt end to the narcotic supply.

"Drastic methods give the best results," Dr. Kolb said. "By this system a patient is suddenly and completely deprived of drugs. He becomes irritable and restless. He cannot sleep. . . he sneezes and sweats. . . and he may collapse . . . but he usually shows improvement in a few days."

During the treatments the patient usually is given a nonopiate sedative to quiet his nerves, soothing baths and electric ray treatments. Within two weeks a responsive patient is "off the habit." Two months is the most required for even a refractory addict, according to Dr. Kolb.

Remainder of the treatment consists mainly of routine designed to keep former addicts from using drugs. The Fort Worth farm will have cattle and chickens for them to tend; workshops for the men and sewing rooms for the women.

Through these methods the Louisville unit cured 1,048 cases of 1,864 admitted during the first two years.

Lift in Palace Chief

Delight of Princess, 6

London.—Flaxen haired, blue eyed, six-year-old Princess Margaret Rose, daughter of the king and queen, has discovered the delights of running the elevator at Buckingham palace.

The quarters of Princess Elizabeth, ten, and Margaret Rose are on the second floor of the palace. Their nurses use the self-working electric elevator when they take the children to see their parents on the ground floor.

The first time they used the elevator Margaret Rose gazed silently at the row of buttons. She watched her nurse push one and felt the elevator descending. It was a new and delightful sensation.

When the elevator stopped at the ground floor Margaret Rose refused to leave it. She wanted to push buttons, too. "Let me do it. Let me do it," she clamored.

Finally her nurse gave way and lifted the baby princess in her arms. But Margaret Rose pushed the wrong button and the elevator rushed to the basement. Margaret Rose was delighted.

Now, however, she has learned that the white button is "down" and the black button "up." And it is her daily treat—if she has been good—when she and her sister join the king and queen for afternoon tea, to stand on the seat and work the elevator.

Chinchilla Goes A-Begging

London.—A full-length chinchilla coat, said to be one of less than a dozen of its kind in the world, was offered for auction here recently, but there was no sale. The reserve price was \$10,000, and the auctioneer suggested \$3,000 as a starting bid, but nobody was willing to offer even that.

POULTRY FACTS

BRICKBAT THROUGH WINDOW IS NEEDED

Would Solve Most Problems in Poultry Housing.

By W. A. Foster, Agriculture Department, University of Illinois—WNU Service.

Bad as poultry housing conditions are, a brick-bat through the window is all that is needed to solve the trouble in some cases. However, even the brick-bat cure will not work if it does not break out enough glass to let in the minimum need of fresh air, he said.

Some poultry houses are so bad that fresh air only filters in through the cracks, while in other houses all the fresh air that ever gets in is what comes through the door when the operator enters or leaves. Too much fresh air makes a cold, drafty house and too little air movement causes a foul smelling, stuffy, soggy house. Neither condition is favorable to healthy or good egg production.

The open front house, with intelligent control, takes care of most weather conditions in Illinois. A long roll curtain of muslin or burlap will prevent drafts and still allow fresh air to filter in. This curtain rolled on a rug pole or clothes line may be rolled up or down and suspended in any size opening by a pair of light ropes at each end. The fabric must be cleaned frequently to remove the dust so the air can filter through.

Another method of closing the open front is to make a set of frames similar to screen frames to fit the opening, cover them with muslin and hinge them at the top like a cellar sash. While the muslin will clog with dust, these sashes are convenient and easily closed where necessary. Completely closing the open front with glass or other material through which the air cannot pass causes a foul condition in the house. When sub-normal temperatures are predicted, there is a strong temptation to close the house to keep it warm. This usually results in moisture which increases from day to day and makes the house damp and cold.

Only Few Poor Birds Affect Crate Prices

Poultry commission merchants in Chicago are calling attention of shippers to the importance of shipping only good quality birds to market. If a crate of chickens contains a few birds of poor quality, the price of the whole crate will be affected and will be considerably lower than it would be if all the birds were of uniformly good quality.

When dressed poultry is shipped it is important that it be dressed in good shape, for featherly, over-salted, bruised or discolored poultry will bring a poor price even though it may have been well fattened. It is important that dressed poultry be thoroughly cooled before being packed for shipment. It should not, however, be chilled or frozen.

Thin poultry, either live or dressed, should be kept at home. Remember a loading poultry for shipment that appearance is a large factor in selling. Therefore, have the birds uniformly graded, keep the good birds together, and keep the poor birds at home to sell on some local market where they will not discount the price of all the rest of your shipment.

As a rule, the commission men do the best they can to get good prices for your poultry, but they ask for your co-operation in order that they may be able to get these prices.

Cull Non-Productors

Low producing birds generally are kept at a loss rather than a profit, so it is important to cull out these birds and the non-producers as soon as they are identified. The pullets which are to become the high producers start to lay early. These may be banded and should constitute the breeding flock when pullets are used for breeders. Late maturing birds, not in production, should be dressed for market. During the year, there will be individuals that will go out of production from time to time. They should be dressed for market, in order to reduce feed costs.

Monument to Hen

In Little Compton, R. I., there is a monument to the Rhode Island Red the first and only monument erected to a hen. The inscription on the tablet reads: "To commemorate the birth place of the Rhode Island Red breed of 'owl' which originated near this location. Red fowls were bred extensively by the farmers of this district and later named Rhode Island Reds and brought into national prominence by the poultry fanciers. This tablet is placed by the Rhode Island Red Club."

Check Profit Years

How many years of profitable laying is a good hen good for? Many poultrymen and researchers would like to know, for a 300-egger, isn't such a good investment unless she remains alive. Cornell university has a hen now in her eighth year with seven good years behind her and still going strong. In seven years this industrious biddy has cackled over 1,401 eggs, an average of 200 a year. Thirty-three other laying birds of the same strain, are four years old or over.

Control of Lice on Cattle Urged

Long-Haired Stock Suffers From Insects; Breed in Cold Weather.

By E. J. Perry, Extension Dairyman, New Jersey College of Agriculture, WNU Service.

Lice breed most rapidly in cold weather on long-haired livestock and frequent examination of dairy cattle and prompt treatment of infested animals are necessary to prevent the pests from retarding growth of young stock and reducing the milk flow in the producing herd.

Although the presence of lice on long-haired live stock is nearly universal, their prevalence depends a great deal upon the state of nutrition of the animal and the extent to which the owner will tolerate the parasites.

The two main groups of lice affecting cattle are the sucking lice and the biting lice. Of the two forms, the sucking lice are the more injurious. The three common species are the short-nosed, sucking blue louse, the long-nosed, sucking blue louse, and the biting red louse. Sucking lice are large in size and have pointed heads and blue bodies, while the biting louse is smaller with a yellowish-white body and a broad, round, reddish head.

A louse passes its whole life on the animal. It lays eggs on the hair near the skin, where they hatch in about two weeks, and then two weeks later the young females begin laying eggs. The locations preferred by sucking lice are the head, the sides of the neck, the back and the inner surface of the thighs. The biting lice are usually on the withers and the base of the tail but they may be discovered on other body parts. Among the common symptoms are rubbing, licking, restlessness and loss of hair.

A thorough spraying or wash with four to five per cent creolin solution or any of the coal tar preparations is effective in controlling lice. Nicotine sulphate also destroys lice when diluted with water so that the solution contains not less than five one-hundredths of one per cent of nicotine. Raw linseed oil can also be used to great advantage and can be applied in cold weather. One pint, when put on with a stiff brush, will treat four or five cows. Since it is difficult to destroy the eggs, there should be at least two applications at 16-day intervals to make sure that all newly hatched lice will be killed. The animals should be inspected for a time after the second application to determine whether a third one is necessary. Vigorous daily grooming with a stiff brush is an important step against infestation.
